

King George V Extension Field

Natural play & exercise trail in bark mulch

1

KGV Nature Part

Weathered steel custom made for Nailsworth KGV field, new entrance with wildflower and butterfly embossed texture. + Information and map panel

Flora & Fauna interpretation board to match entrance

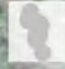

2

Ephemeral pond with marginal planting

2

-  Wildflower meadow
-  Amenity grass
-  landscape rocks
-  0.6m Height contours
-  Rustic style hardwood bench

The place will be a delight for all ages. Maximising views and connections out into the beautiful surroundings, a variety of spaces defined by meadow edges and undulating topolgy that serve as wind shelters are fluidly linked with good sightlines maintained throughout. Favourable wildlife such as birds and butterflys will be encouraged with habitats and planting.

Groundworks to contour the land and provide an ephemeral (seasonal) pond will help restructure the compacted soil for improved drainage.
