Lighting at New Mills, Newmarket

Cllr S Robinson reported that a resident had recently complained about the excessive lighting at New Mills, Newmarket. This was one of many complaints about this matter from people living in Shortwood. Cllr Carter explained that he had spoken, emailed and written to the managing agent but had received no response. He had recently written to the company's managing director but had not received any response to that letter either. Cllr Carter agreed to discuss the issue with SDC's environmental health department to see whether there was anything that they could do.
