2018/056	<p>To agree to release funds for a feasibility study for Market Street improvement</p> <p>There was a discussion about the need for the Town Council to think proactively and show confidence in the town by increasing its attractiveness, with improvements to Market Street as the start of this.</p> <p>At the previous meeting the Clerk was asked to seek clarification from SDC that NTC’s proposal for the Market Town Centre Initiative Fund wouldn’t be prejudiced if work had already started. It was clarified that the Fund has quite flexible criteria and NTC’s proposal could be adjusted should work go ahead before a decision is made by SDC.</p> <p>Concern was expressed about Amey carrying out the work and there was preference expressed for putting the work out to tender, seeking an imaginative solution for Market Street.</p> <p>There was discussion about looking at the town centre as a whole, not just Market Street, so that an integrated approach is assured. The scheme needs to be looked at not just as a traffic management scheme but as a comprehensive approach, improving aesthetics and opportunities. It should reference the findings of the Evans Report.</p> <p>After further discussion it was proposed that the Market Street Improvements working party meet as soon as possible to look at an overarching town centre approach; to draft a design brief with three phases of improvements, with Market Street as the number one priority.</p> <p>Proposed Cllr Jonathan Duckworth, seconded Cllr Anne Elliott, agreed unanimously.</p>	Steve R/Clerk
